Dear Mrs. Walter:

I have found earlier citation lists helpful and am writing to request copies of the following:

16.1d
16.5
20.0, 20.1
22.0, 22.1, 22.2, 22.3

In 1964, I published a "Bibliography of EEG in Human Psychopharmacology" (Elsevier, EEG supplement #23) and have maintained my files since then. It may be useful to attempt a decennial addition in 1972 (the listings ended 1962). This will be a large task, and I am writing to ask if the BIS can cooperate. If so, I should like to visit on my next trip west.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
