Dr. Robert Heath  
Professor, Dept. of Psychiatry  
Tulane University School of Medicine  
New Orleans, Louisiana

Dear Bob:

First, let me congratulate you on your program for the A.P.A. which I think is an excellent one and I look forward to that session.

Dr. William Lang, a pharmacologist in our laboratory, is taking some holidays in New Orleans next week. He is participating in Dr. Gershon's studies of the relationship of behavioral changes and various physiological variables as they are modified by new psychoactive compounds. I would appreciate his having an opportunity to visit in your laboratories, particularly to see the kind of implanted electrodes and cannulae you are using in your animal studies. I have asked Dr. Lang to call your office on October 5th and I would be grateful if one of your associates could accommodate him during his visit.

Sincerely yours,

Max Fink, M.D.  
Director
