Dr. Jack Mendelsohn  
National Institute of Mental Health  
Chevy Chase, Maryland

Dear Jack,

After our fine lunch in Chiradelli Square, and the discussion of alcohol antagonists, I was pleased to find the enclosed in the evening paper, the Oakland Tribune.

If there is anything to this approach or the compound, we could look into it. Do you have the data of the methods of Dr. Kuuehnau of Wiesbaden ?

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
