Dr. Lewis L. Levy  
290 Meeting House Lane  
Orange, Connecticut

Dear Lew:

I have recently become interested again in the compound cycloserine. I recollect that many years ago you were interested in this compound. In checking the literature, I find no publications.

Am I correct in recalling that you studied this compound? If so, I would be grateful for citations to your work or that of your co-workers. My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
