Steven Schlossberg, M. D.
Janssen R & D, Inc.
501 George Street
New Brunswick, New Jersey 08903

Dear Steve:

Congratulations on your new position. From my knowledge of Paul Janssen and his teams, you will be kept busy with interesting and novel ideas. My last contact with Janssen R & D was with regard to the central effects of an anti-helminthic with presumed antidepressant qualities - tetramasole(?). What did happen to it?

My best regards.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
