Dr. W. P. Colvin
Medical Department
Burroughs Wellcome and Co., Inc.
1 Scarsdale Road
Tuckahoe, New York 10707

Dear Dr. Colvin:

We are continuing our study programs with long acting fluphenazine and have found Kemadrin to be a useful agent. Would it be possible for you to provide us with an additional supply of Kemadrin, 5 mg tablets, either in a bulk of 5,000 tablets or in individual canisters of 20 tablets each, as you previously supplied?

My best wishes for the New Year!

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
