Dear Dick,

At the recent meetings in Detroit I had the opportunity to meet with Dr. Overton who is now working in the laboratories of Charles Shagass at Temple University in Philadelphia. He is interested in the same problems that interest me and you may wish to send him a description of your Time/Data 100. Feel free to tell him that I suggested that you do so.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
