

March 2, 1964

Dr. Ron Bonato
The George Washington University
Biometric Laboratory, Room 618
1145 Nineteenth Street, N. W.
Washington 6, D. C.

Dear Ron:

Rosemary has told my whole family of your naming her during the visit to Florida. She is so delighted, that her sister has asked when she, too, will have a chance to meet you and find her "true" name.

Rosemary has asked that I send you her love, and invite you to visit St. Louis.

If you are as much a hit with the girls in Washington as you are with my daughters, your wife must have considerable cause for worry!

Sincerely yours,

Max Fink, M.D.
Director
