Dr. S. Clyde Strickland
Merck Sharp and Dohme
West Point, Pennsylvania 19486

Dear Clyde,

I would be grateful for supplies both of benactyzine and parenteral Cogentin as I am reviewing studies of the convulsive therapy process in man and animals.

Would you please supply the following for human trials?

36 - 2 cc ampules Cogentin each containing 2 mg.

100 - 1 mg tablets Suavitil for oral use.

For our animal studies is it possible to get 100 mg of benactyzine powder without filler?

Again, my thanks for your cooperation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
