

December 31, 1964

Dr. Jonathan O. Cole
Chairman, Program and Coordinating Committee
A.C.N.P.
National Bank Building
Bethesda, Maryland

Dear Jonathan:

Jim Toman and I have discussed the forthcoming section meeting in January. He will write to indicate that we would like to have projection equipment available and will spend our study group time to discuss the paper presented by Charles Shagass. Considering the format of the meeting, I recommended that we invite Dr. Turan Itil to present a summary statement of the differential effects of drugs on the electroencephalogram in patients with depressive and non-depressive psychotic states. Jim agreed, and Turan will be prepared to make this kind of presentation.

As for the roster of the study group, the best I have available are the list of participants at the various study group sessions. For your information, I am attaching a list of fellows of the College who have participated in our sessions.

I look forward to seeing you in the middle of January.

Sincerely yours,

Max Fink, M.D.
Director
