Dr. Jonathan O. Cole
Boston State Hospital
Boston, Massachusetts

Dear Jon,

Previously, I sent the reports by Small & Small and Dornbush. The Essman report was returned, and has been re-edited.

Enclosed are two copies each of the Abrams and the Essman reports. The Essman paper is better, but if it still is unsatisfactory, please do not hesitate to edit it. I have asked him to send me the glossy prints for his two figures and these will be sent with the next batch.

The reports by Volavka, Fink, and the Q & A are in their final typing and should be done by Friday or Saturday. I am distressed only about the section by Pitts-- he had promised it two weeks ago and when I called him on Monday, he said it had been mailed. Lost ? I hope not-- but he promised to send me another.

There is also an introduction that I wrote for your use, which will come with the next batch.

It has been fun, and I hope the texts are satisfactory.

Sincerely yours,

Max Fink, M.D.

P.S. I cannot be sure-- did you ask me to send you duplicates of the Dornbush and Smalls' reports ?
