March 9, 1966

Dr. Oldrich Vinar
Head, Department of Psychopharmacology
Psychiatric Research Institute
Prague 8 - Bohnice - Czechoslovakia

Dear Dr. Vinar:

It is kind of you to want to visit our laboratories and we would be pleased to make the necessary arrangements. Unfortunately, the dates that you have selected, April 15-16, coincide with a pharmacological meeting being held in Miami. Both Dr. Itil and I plan to be away from the laboratories at that time.

I know how difficult it is to make arrangements at this great distance, and I would suggest that we compare our calendars when we meet at the CINP meetings.

I hope you have a pleasant journey to the United States.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
