Dr. Bernard C. Glueck, Jr.  
Director of Research  
Institute for Living  
Hartford, Connecticut

Dear Buz,

My associates and I look forward to visiting your facilities on Monday, June 3. Don Shapiro, the director of our Biomedical Information Processing center will join me, as will three of our programmers and one of my associate psychiatrists.

In addition to the central processing facility and the terminals in the clinical units, I would like to have an opportunity to visit with Dr. Stroebel.

Thank your for your assistance. My best regards.

Sincerely yours,

Max Fink, M.D.
