Seymour Kety, M.D.
Professor of Psychiatry
Harvard Medical School
Massachusetts General Hospital
Fruit Street
Boston, Massachusetts 02114

Dear Seymour:

The volume, Psychobiology of Convulsive Therapy, is published. I received hand-bound copies last Wednesday to exhibit at the Boston sessions of the American Psychopathological Association.

You should each receive five copies as editor-contributors. I am enclosing some cards for distribution, should you find these useful.

I am pleased with the volume, and I hope you are also. I am grateful for your collective and individual advice, criticism, and contributions--and can only say "Thank you."

My best regards,

Sincerely yours,

Max Fink, M.D.
