Dear Dr. Heller:

The Institute opened the ward L6 in the fall of 1976 and it now has 10 patients in three studies. Dr. Asnis is the ward chief, and Dr. Ts'o will be the other staff person in July. As you may have read, N. Y. State did not allow any new positions for LIRI for 1977-78; and so, regretfully, I cannot process your re-application at this time.

It would be best for you to complete your residency training and meet the requirements for licensure in Florida, and then try to re-establish your research studies.

Best wishes in your studies. I trust I will have a chance to see you at one of the national meetings.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
