Paris 7, France

Gentlemen:

I am writing in support of the application of Dr. Richard P. White for support for travel funds to enable him to work with Dr. Philip Bradley in Birmingham, England.

I have known of Dr. White's work for many years, based on our common interest in the electrophysiological effects of anti-cholinergic hallucinogens. Dr. Whites' studies are among the best controlled and most carefully done which have been recorded in this difficult field. On two occasions I have had the pleasure of calling on him to participate in international symposia and have found his contributions unusually rewarding.

Dr. White's interest in extending his techniques by working with Dr. Bradley, who is another outstanding leader in this field, is to his credit and I would encourage the Committee to make every effort to provide him with the funds necessary to undertake this study program.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
