

February 28, 1966

Division 3, 1966 Proceedings
American Psychological Association
1200 Seventeenth Street, N.W.
Washington, D.C. 20036

Gentlemen:

Enclosed are draft copies of the report "The Scalp Recorded Averaged Evoked Response to Simultaneous Cutaneous Electrical Stimulation" for your consideration for the 1966 meeting of the American Psychological Association. Two copies of an abstract are also enclosed.

The figures demonstrating some of the observations are being prepared but are not available today. I will submit these within the next ten days.

Thank you very much for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
