Mr. Bob Murphy
King and Murphy Inc.
1411 Ambassador Building
St. Louis 1, Missouri

Dear Bob:

I believe your idea of using the acoustical tile on the walls in the West Wing Laboratory is an excellent one. I would suggest you include these in your proposal. I assume from the fact that this is made of glass, and that it is washable, that we should be able to move these and wash them as necessary.

Also, in view of the cost of the use of carpet in the Library, would you please write the specifications for tile or similar equal?

Sincerely yours,

Max Fink, M. D.
Director
