Chevy Chase, Maryland 20203

Dear Jerry,

Enclosed is our ECDEU report for 1968-69. It is more extensive than presented in June, since it provides a view of our progress as well as the directions we are now taking.

It would be helpful for me to review these data in our laboratories, to share your experience and to provide a firmer basis for the EEG and Human Psychopharmacology program (MH-13358).

Would it be possible for you to spend some time with us this summer, before the fall rounds of meetings set in? I will call your office in a few days.

I received a letter from Dr. Stephen Bernstein, and in view of his role in the ECDEU program, I am sending him a copy of this report and would be pleased to have him join you.

I look forward to your visit.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
