Dear Mr. Wheeler:

We are pleased to submit our report *Social Class and Prognosis of Schizophrenia* for your consideration for publication in *Social Problems*.

During the past two years we have embarked on a study of the therapy resistant psychotic patients and were surprised to find the diversity of opinion regarding the influence of social class on the outcome of the treatment of schizophrenia. We believe this review may serve a useful purpose in summarizing the available data and crystallizing for others as it did for us, the variety of opinions.

If this report is considered suitable for publication, we will be pleased to modify the citations to fit the style of *Social Problems*.

Sincerely yours,

Max Fink, M.D.
