

April 17, 1963

American Journal of EEG Technology  
Neuropsychiatric Research Bldg. 36-4W  
U. S. Naval Hospital  
San Diego 34, California

Dear Sir:

When the American Journal of EEG Technology was first founded, I believe I asked for a complimentary examination copy and then authorized the Library of the Hillside Hospital, Glen Oaks, N. Y. to subscribe. While at the Hospital, I received copies of the Journal and assuming these were for the Library, would send them on.

If I am in error, please cancel my subscription. If a debt has been incurred by me, would you please indicate.

Sincerely yours,

Max Fink, M. D.  
Director
