Dear Mr. Chayet,

Please accept my congratulations on a job well done !
I have read the proceedings in the Congressional Record of the last few weeks, and I was pleased that so much good could come after the very bad bill of last winter. I trust that the Committee will not disband, but will continue to express the voice of rational drug laws.

If copies of the final bill and the Congressional record testimony are indeed available, I would like copies for reading by our students.

Again, my thanks for your strenuous and fruitful efforts.

Sincerely yours,

Max Fink, M.D.
