Dr. Bruce Waxman  
National Institute of Mental Health  
National Bank Building  
6917 Arlington Road  
Bethesda, Maryland

Dear Dr. Waxman:

Knowing of your interest in the application of computers to EEG analysis, I am taking the liberty of sending you the enclosed draft copy of a report which has recently been submitted for publication. I think it represents our efforts earlier this year. Since that time our programs have been modified so that analyses are continuous, on-line, with varying sample sizes and sampling rates.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
