Dear Dottie:

In checking my files I found the enclosed draft protocol, dated October 12, 1973 for an EEG assay of SP-1 (A-40174) and some notes regarding conversations with Drs. George O'Brien and B. D. Holland. The file contains summaries of two studies by A. S. Keats.

As best as I recall, we negotiated an agreement, and were awaiting supplies, when I received a call terminating the discussions.

It was good to talk to you again. My best wishes for a healthy and happy 1977.

Sincerely,

Max Fink, M.D.  
Professor of Psychiatry
