

Canonical Corr.

April 9, 1964

Dr. Dean Clyde
Biometric Laboratory
University of Miami
250 Bird Road
Coral Gables 46, Florida

Dear Dean:

Thank you very much for the canonical correlations on the Hillside residual scores. I have sent the data to Jim Vanderplas. As a user of computers and computer services, I am confused by the discrepancies. Since I cannot believe that it is in the machinery, I suspect there is an error in the program here.

Thanks again, and if Jim has any other questions I will communicate with you.

Sincerely yours,

Max Fink, M.D.
Director
