Dr. Maxwell Gordon
Smith Kline & French Laboratories
1500 Spring Garden Street
Philadelphia, Pennsylvania 19101

Dear Dr. Gordon:

I am pleased to enclose the most recent reports of EEG measures of psychoactive drug effects. The data is still sparse, and we now have 3 new drug/EEG studies in progress, one of which is in Phase I Study. We should have more data by the year-end.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
