Dr. Kenkichi Suhara
Faculty of Education
Tokyo University of Education
Tokyo, Japan

Dear Dr. Suhara:

I have read your report "Technical Aspects of Brain Wave Analysis" with a great deal of interest. Upon the recommendation of my Japanese associates, I am taking the liberty of sending you a copy of our publication describing some of the digital computer programs which we have developed and applied to the problems of EEG analysis.

I trust this will interest you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
