Dear Don,

A question has been raised regarding space needs for a computer facility. It is a possibility that in the 102nd Street building for some space to be rented, which could house the EEG computer unit and your projected units next to each other, or your units alone, leaving the EEG on the eighth floor. Would you please project in a rough drawing the approximate space you would like to have in 18 months for your use, either with or without moving the 1620 to this building.

If you will send that to me, I will make this recommendation to Mr. Schwartz, for it may be that the Department of Psychiatry will negotiate for the space but turn it over to you later.

April 1 is fine. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
