Dear Fritz,

Enclosed are some notes and the reprints I borrowed from Dr. O'Connell. The budget may be too big, but it represents the true costs today. It can be scaled down, of course, and I can suggest where paring might be done.

Thank you for the opportunity to read, what is to me, a new and interesting aspect of psychiatry. I trust these comments are helpful.

If you are able to pass the bill on to a granting agency, the consulting fees are \$50/hour and this required about 5 hours.

My best to Dr. O'Connell.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
