Professor P. B. Bradley  
The Medical School  
Birmingham 15, England

Dear Philip,

Enclosed are the replies which I have received during the past week. They include positive replies from Drs. Herz and Bures. Drs. Hance and Michelson have declined. The letter from Dr. Ilyutchenok is most interesting and I am inclined to accept his offer to have a paper submitted.

I am leaving St. Louis for a few days and would like to wait another week to receive whatever additional replies we are going to get. We should be able, with ten stated participants, to formulate a program by the first of the year.

My best wishes for the New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
