Dear Alain,

I have been asked by the Department's Chairman to present some of our findings in our new drug studies to the full department staff on Friday, February 2. I have decided to present the Prolixin decanoate and enanthate material. I would be pleased if you would be a discussant.

I am also preparing some lectures for the residents and as this will take place on Friday from 11 to 12, I should like to ask you to participate with me that day at 11 o'clock.

The staff conference is from 12:15pm to 2:00 pm.

My best wishes for a Happy New Year.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
