Dear Nina,

During my few visits to St. Louis, Dr. Itil worked me so hard that I had no chance to visit you. However, I did meet Don Sundland and was pleased to hear of your project.

Recently Jovan Simeon shared with me one of your monthly envelopes and I was pleased to find at least four articles that I had not seen before and which were of further interest to my present program. Would it be possible to extend your service to an ex-Missourian?

My best regards.

Sincerely yours,

Max Fink, M.D.
