

July 24, 1969

Dr. Michael A. Taylor
9309 Murillo Avenue
Oakland, California 94605

Dear Mickey,

Enclosed are final copies of your letters and the two reports which were sent out this week. The reprints from Science have not yet arrived although we keep getting an increasing number of requests.

Enclosed is a short note that will appear in Woman's Day; and your reports are being summarized by NIMH in one of its publications.

Now can I take a vacation???????????????

Bob Levine called to give us his address and to get some data from Stanley. He seems to still be depressed but I hope it is transient. Dick received a gift of four tickets to Brussels and return and hopefully will use the return next week.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
