Dr. Guy Everett
Section Head, Neuropharmacology
Abbott Laboratories,
Research Division
North Chicago, Illinois

Dear Guy:

It was a great pleasure talking to you in Washington. Your point regarding drug dosage on a mg/kg basis was well taken and when I returned to St. Louis I discussed this with my associate, Dr. Itil. I was most pleased to find that in two of our present programs in which patients are receiving fixed dosages of drugs, the schedules ~~are~~ made on the basis of mg/kg.

We would be pleased to have you visit with us on any of your trips to the midwest and I look forward to seeing you in Washington in January.

My best regards.

Sincerely yours,

Max Fink, M.D.
Director
