Dr. Seymour Kety
Professor of Psychiatry
Harvard Medical School
Boston, Massachusetts 02114

Dear Sy,

The meetings were excellent in Aspen, and I very much enjoyed your presentation of catechol amines and memory function. I am writing to request a copy of the paper, so that my associates and I can have the luxury of reading it in detail and digesting the material at leisure.

Perhaps there is an occasion when some of the students of the convulsive therapy process can get together to discuss these new findings.

I look forward to seeing you at the APPA.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
