Dear Jim:

About a month ago I wrote regarding an application we received from Dr. Alexander Don. His credentials were excellent and I have recently received a letter from Professor Hurst of South Africa who gave him a very fine recommendation. I am anxious to process this further, but have not heard either from him or from you.

Has he contacted you? If not, would you consider calling him on my behalf? This may be a bit irregular, but I am faced with a choice at the present time of recommending the appointment of a psychiatrist such as Dr. Don, or using the same funds for a pharmacologist who is interested in coming in September. It would be helpful for me to know whether he is interested, and whether I should process this further.

My thanks and my best regards.

Sincerely yours,

Max Fink, M. D.
