

August 16, 1968

Dr. Jonathan O. Cole
Superintendent
Boston State Hospital
Boston, Massachusetts 02124

Dear Jon,

Enclosed are the initial reports on cyclazocine as an antidepressant as submitted for publication to Dr. Braceland. This suggestive confirmation of the EEG predictor model for psychoactive drugs has stimulated ongoing studies of doxepin.

Perhaps you may wish to share these reports with Al DiMascio.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
