

May 10, 1965

Dr. Prehlad S. Vachher  
4035 Spruce Street  
Philadelphia, Pennsylvania 19104

Dear Dr. Vachher:

Thank you very much for your letter of May 6. The Department of Psychiatry at the Missouri Institute of Psychiatry is a research and training unit of the University of Missouri. It was established in 1962 and its principal programs are in research and the treatment of the severe mentally ill. The Institute Staff also participates in the training of psychiatric residents for the Division of Mental Diseases of Missouri.

Psychiatrists who have completed three years of credited residency training are generally appointed as an instructor in the Department at a salary level commensurate with their experience in teaching and research.

Positions in the Department are on a full time basis and we are most interested in assisting staff members in the development of a research and training career. If such a career interests you, I would be pleased to receive a copy of your curriculum vitae and a small photograph. It would also be helpful if you would complete the enclosed application for appointment to the University of Missouri for then the administration could determine whether they would approve the recommendation for appointment.

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
