Dear Mr. Boyer:

Enclosed is a formal BNDD order requesting 750 mg. levo-methadyl for the continuation of our studies under IND 6590 and 6825.

We are also enclosing a copy of the protocol submitted as an amendment to our IND. The amount requested will permit the study of 50 patients in a more definitive evaluation of levomethadyl and methadone.

We anticipate beginning this study about January 1.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
