Dear Hy,

Enclosed is an abstract for the forthcoming meeting of the Psychiatric Research Society (GWON) to be held on March 22. Following your recommendation of papers describing clinical and basic science correlation, I am pleased to recommend the report "Heroin - Challenges in the Evaluation of the Treatment of Opiate Dependence."

Incidentally, Jonathan and I are looking to leaving for Switzerland on February 10. Would you and Michel consider joining us?

My best wishes for the New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
