Garfield Tourney, M. D.
Assistant Director
in Charge of Education
Lafayette Clinic
951 East Lafayette
Detroit, Michigan 48207

Dear Dr. Tourney:

In response to your letter of July 30, the title of my presentation will be "Effects of Psychotropic Drugs on Brain Function." I should like to review the evidence for the different induced changes in brain function with drugs, especially that of EEG in man, and relate these to theories of the mode of action of drugs and the pathophysiology of different psychotic processes.

While not essential to the presentation, it would be most helpful to have 3-1/4" x 4" and/or 2" x 2" slide projectors, if such equipment is available.

I shall be looking forward to this visit.

Sincerely yours,

Max Fink, M. D.
Director
