

F. Letters

April 11, 1978

Robert Garber, M.D.
Carrier Clinic Foundation
Belle Mead, New Jersey

Dear Bob,

I regret that the dates that you have suggested for a visit to Belle Mead are the most difficult in the year for me. My principal teaching commitment to the medical students is in May/June, and there is no Thursday that I can dedicate for the trip.

Perhaps, when you make up the 1978-1979 schedule, we can find an occasion for a visit.

By now you know that the A.P.A. Task Force on Convulsive Therapy has submitted its report to Trustees and we are awaiting their decision as to its acceptability as an A.P.A. position paper. You should be able to get a preliminary draft by writing to Dr. Work.

My regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
