1785 Massachusetts Avenue, N.W.
Washington 6, D. C.

Gentlemen:

In a recent issue of SCIENCE the "Recommendations on Faculty Salaries Charged to Government Contracts" is discussed. The Psychiatric Research Foundation of Missouri is now establishing its salary schedules and is trying to maintain a balance between its own needs and the established practices of the universities. I would be grateful for a copy of those recommendations as they may be helpful in establishing our own policies.

Sincerely yours,

Max Fink, M. D.
Executive Director
