Dear Mr. Erlbaum,

Enclosed is the introduction to the volume by Martin Katz. This represents the last formal document for the volume. Lacking is the list of participants and their affiliations. I have written to all the authors and asked that they send me, by return mail, edited titles; and I have most already in hand.

This submission should make possible a better estimate of the size of the volume, and the time course of publication. I will call you later this week to see where we stand.

Sincerely yours,

Max Fink, M.D.
