

December 11, 1969

Dr. Daniel P. Bobon
Clinique Psychiatrique
University of Liege
Rue Saint-Laurent, 58
Liege, Belgium

Dear Dr. Bobon:

We look forward to having you work with us from April 13-25, 1970. I would be pleased to have you meet the staff, attend conferences and become acquainted with the projects in progress. It will also give you an opportunity to meet Professor Freedman and to visit some of the other laboratories at the College that may interest you.

The College does not have a dormitory, so that visitors usually stay at one of the residential hotels within 10 minutes of the laboratory. These are available at approximately \$90/week. Meals may be taken, in part at the hospital, and average \$6.00/week.

I look forward to welcoming you in New York. If you will let us know the time and route of arrival, we will make the necessary arrangements.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
