Dr. William C. Janssen
Lakeside Laboratories
Milwaukee, Wisconsin 53201

Dear Dr. Janssen:

Thank you very much for your letter of October 18, and the supplies of Ditran and THA which have arrived safely. Thank you also for your comments regarding conceptual disorganization. We will keep these in mind during our study.

Because we have been interested in this subject for some time and Dr. Itil and I had been asked to write a chapter for a forthcoming textbook of psychiatry, we elected to make some comments regarding the use of anticholinergic drugs in treatment programs. A copy of this chapter is enclosed for your information.

You may already know that Dr. Gershon has left these laboratories to take on another position in New York.

We would be pleased to have you visit us the next time you come to St. Louis. Dr. Itil joins me in thanking you for your co-operation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
