

March 19, 1970

Dr. Allen P. Berger
Chas. Pfizer & Co.
Groton, Connecticut

Dear Allen,

Separately I am sending you the completed data sheets of the doxepin-chlordiazepoxide study. You have already received the Biometric Laboratory analyses of this data. I am enclosing the card out-puts as supplied by the Biometric Laboratory for the use of your staticians.

In addition I am enclosing a laboratory data output from Biodata, Inc.

Enclosed with this letter is a more complete final report. This includes some tables not submitted to Current Therapeutic Research. That report has been accepted for their April Issue.

It has been a pleasure working with you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
