ACKNOWLEDGMENTS

Most of the photographs in "Kronos" were supplied by members of the class of 1980. The staff wishes to thank our classmates for their help.

More pictures were submitted of some than of others, and pictures of some faculty members were not available at all. Limits on time and funds kept us from correcting the imbalance. For this, we apologize.

Our thanks to Justin Schechter and other members of the class of 1981 yearbook staff for the many photos they provided.

We appreciate also the help of Media Services, and extend special thanks to Jim Beck and the University Print Shop for their advice and particular care in producing this book.

Bon Voyage!
SCHOOL CENTER
of New York at Stony Brook

I have noticed that some of the names of either directors
of residency training or departmental chairmen which have
been submitted for Dean's letters are incorrect. In some
cases the person is deceased. It seems to be in your best
interest that you check with the program or department in
order to ascertain the correct name of the person to whom
the Dean's letter should be addressed.

EXAMINATION CENTER 328 SUNY STONY BROOK
ADDRESS HEALTH SCIENCES CTR LECTURE HALL 2 LEVEL 2 STONY BROOK

Dear

11590

I am pleased to inform you that your application for admission to
entering freshman class of our School of Medicine has been accepted by the
Committee on Admissions. It will be necessary for you to secure a place in this entering class
it will be necessary for you to notify us within 15 days of your intent to
enroll. We do not require a deposit, because we want to maximize freedom of
choice to medical school applicants. We shall, however, consider that this
letter and your statement of intent bind both you and us unless you request
release from this obligation in writing. We shall honor such a request for
release automatically.

This offer of acceptance is contingent upon your satisfactory completion
of the academic work to which you committed yourself in your application.
Prior to your actual matriculation here, it will be necessary for this office
to have on file transcripts of all college level work completed.

The Committee on Admissions makes its decisions on acceptance independent
of any information about a person's ability to fund his own education. If it
will be necessary for you to seek financial aid, you are invited to inform us
in your response for you to seek financial aid, you are invited to inform us
necessary to document your need, and when the Student Financial Aid Committee
has determined to what extent your need can be met by resources under its con-
trol, you will be promptly notified.

The first year of our four-year curriculum begins August 12, 1976; we look
forward to your joining us on that date. Congratulations on your acceptance.
The competitive pressures for admission to the study of medicine are now behind
you. We hope that the motivation for learning will henceforth come from your
sense of dedication to the acquisition of competence and the rewards and
challenges of caring for patients.

Sincerely yours,

Gerald Allen Green
Gerald Allen Green, Ph.D.
Associate Dean

ACADEMIC GUIDELINES FOR THIRD-YEAR CLERKSHIPS (1978-1979)

These guidelines will serve to familiarize students with clerkships in regard to what will be offered to them and what will be expected of them. Each of the following descriptions have been submitted by the appropriate department and reflect the official policies of that department. There are some variations in grading techniques but these are described below. All clerkships utilize evaluation forms, which are included in the clerkship. Following the clerkship, the faculty of Medicine as to whether a student's performance is "Unsatisfactory" is accompanied by recommendations are reviewed by the Dean in accordance with the

Prior to each clerkship, the student should appear for the Dean for a conference to discuss the clerkship.

Dear Medical Student:
The Department of OB/GYN, under the direction of Zev Rosenwaks, M.D., Assistant Professor and Chief of Reproductive Endocrinology and Infertility, is sponsoring an artificial insemination program and is seeking sperm donors.

lerk-

To Prospective Applicants:

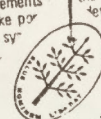

In 1976, Stony Brook will be selecting its sixth entering class. As in the past two years, we are conducting our own application processing. We want an able, diverse group of medical students. Your ability will, to some measure, be evident in your academic record, your scores on competitive examinations, and your faculty's statements. The contribution you might make to our student body and to the medical profession will, we hope, become apparent in reading your own statements and the comments of others. It is our wish that our group of applicants will be sufficiently small to make possible a detailed study of the contents of your entire admissions file, rather than to reduce your data to a syllable.

We know that the manpower resource will not permit us to meet with every applicant. We provide to be an invaluable part of the Brook for interviews. Much as we are setting up interviews, since our meet with us.

From the group of applicants, a small group will be selected to make any effort to learn about the School of Medicine.

IN FACTORS

Stony Brook is a small school. Applicants should possess a minimum of academic achievement in chemistry, physics, organic chemistry, and biology. A degree should have special interest in successful applicants.

HOUSING AT CLINICAL SITES

If you wish to stay at the clinical sites the following information is useful:

Long Island Jewish-Hillside-Housing at L.I.J. will cost \$3.00 per night. This fee must be paid in advance. Checks should be made out to School of Medicine Education and Research Fund. All checks should be given to me. You must submit your check and give your name to Donna. She will make the necessary arrangements.

Nassau County Medical Center-Housing will cost \$10.00 per night and you must pay a \$5.00 refundable deposit. All payments are made at NCMC. You should give your name to Donna so that a room can be reserved.

It gives me great pleasure to inform you that Dr. Stanley Zucker will be entering the Dean's Office on January 1, 1978, as Assistant for Academic Affairs. He will replace Dr. Stanley Zucker who so graciously filled in for the past year. Dr. Tardiff's responsibilities are outlined in the following job description:

This dean will be responsible for the maintenance of the provision of student records, letters of recommendation, and the provision of

Stony Brook

MEMORANDUM

Office of the Dean
School of Medicine
Health Sciences Center
State University of New York at Stony Brook
Long Island, NY 11794
telephone: (516) 444-2080

To Editor, Bartlett's Familiar Quotations

From Class of '80, SUNY Stony Brook

F. Miller: " I'm not against syphilis. I'm for it. All medical students should be exposed to it during the course of their four years."

J. Stern: "You will learn a lot in the next twelve weeks and you will forget a lot."

M. Levine: "Is that why my side hurts when I run? Did I infarct my spleen?"

G. Strichartz to R. Sotsky: "Repeat it? I haven't even said it yet!"

C. Ordway: "Radiologists work in the dark."

M. Kaplan: "Take any rat off the street, give it steroids, and it will get P. carinii."

Many : "You'll see that again and again."

Papo: "Excuse me please..."

J. Stern: "I am not stubborn!"

P. Kane: "This slide is fading rapidly, as are some of us."

F. Khan: "There are not many pulmonary physicians; you can throw a stone and hit a cardiologist."

S. Weitzman: "Dyspareunia is better than no pareunia."

More: "That will come up again and again."

M. Pavlova: "Where's David? If David were here, he would know."

P. Kane: "This is the first light in the window of an otherwise very dark...
... window."

E. Lugo to H. Fritts: "Will you please speak up?"

C. Ordway: "Medical students spend too much time learning about sex and not enough time doing it."

F. Miller: "Just to cut through the heart of the issue..."

N. Seriff: "Elizabeth, New Jersey is what Dante had in mind."

E. Lugo: "In this, the year of our bicentennial..."

P. Kane : "I just received a lecture on the difference between chimes and bells."

D. Katz to A. Koornick: "I don't remember who gave it, but the lecture on shock was really terrible."

G. Strichartz: "From the ashes of Auschwitz to the muck and mire of Vietnam..."

F. Miller: "Macrophages rush in where other cells fear to tread."

P. Kane: "How big is an alveolus? Why do I go into this? Not to embarrass you. I'm sure you are all forgetting."

N. Eyler: "Have you said anything important in the last five minutes?"

Papo: "You people are beautiful."
